

# Riding the PMA Roller Coaster

# Creating Energy

Potential energy from the lift hill is converted to kinetic energy as the cars drop down the slope

# Creating Energy

Our members give us energy through their attendance and participation!

# Creating Energy

This energy allows MARPA to take on challenges that are important to its members and the PMA industry

# Hills and Loops - Challenges and Opportunities for PMA

- FAA Reorganization
- FAA Order 8110.42 Policy Updates
- Order 8130.21
- Draft Policy ANE-35.1-01-R1: PMA for Propeller Critical Parts

# Hills and Loops - Challenges and Opportunities for PMA

- MARPA works collaboratively with the FAA and other industry stakeholders to build sound policy

# Hills and Loops - Challenges and Opportunities for PMA

- Bilateral Aviation Safety Agreements
  - TIP 6
  - MAG 6
  - UK Bilateral?
- International Collaboration
  - CMT, MMT
  - CAA meetings

# and Corkscrews - Challenges and Opportunities for PMA

- Lease terms
- Support agreements
- PMA Supplement eligibility updates
- Anticipating customer needs

# Scary and exciting!

- Policy and attitudes can change drastically and it can be disorienting
- This also creates opportunity, and MARPA is here for the ride

# Let's Go Again! -2019 EMEA Conference

- Dublin, Republic of Ireland
- May 15<sup>th</sup> -16<sup>th</sup>
  - reception on the 15<sup>th</sup>
  - general session on the 16<sup>th</sup>
- Building on our success:
  - We have had great air carrier attendance at the last several EMEA meetings – including many carriers who had not previously attended the domestic conference
  - Lessors attending as well!

# Let's Go Again! -2019 EMEA Conference

- Dublin, Republic of Ireland
